

## Launch of new website

July 2009 sees the launch of Vega Mfg Ltd's new website, which has been redesigned with a vibrant new look, new content, significant layout and added features. It contains detailed product data easily located through an enhanced user-friendly interface and will be continuously updated with the latest company news, market information as well as general product knowledge.

We want our new website to be everything you want it to be, and so would like to know your thoughts. You can be as honest as you like and let us know what you think by sending any constructive comments through e-mail to [generalm@vegamfg.com.hk](mailto:generalm@vegamfg.com.hk)
