

VEGA MFG. LTD. manufactures More Than Just Standard

Traditionally, schools or business organizations will choose standard format of projection screen, like 1:1, 4:3 or 16:9 for lectures and presentations while standard size of screens may not satisfy the performers' needs for artistic industry or special performance.

In order to increase the flexibility to meet every customer's needs, VEGA MFG LTD not only manufactures standard format of projection screens but also provides custom made screen for customers. No matter what size of screen you are looking for, we can tailor made it and make all your dreams come true!

For further enquiry, please contact us by sending e-mail to generalm@vegamfg.com.hk
